## Signs of Disease

The First Signs of Disease are a Poor Complexion, Weakness, Emaciation and Lack of Vitality.

The first sign of returning health is increase of flesh, strength and vigor. This weakness, emaciation and lack of vitality simply means that certain substances, which go to make up the blood and nerves, have become exhausted; and to renew flesh, muscle and strength, these substances must be restored. Dr. Chase's Blood and Nerve Food is composed of the same kind of substances that are lacking in the impoverished blood and nerves when in poor health, and abundant in the rich juices that flow through the system when in perfect health. If people would take this food occasionally when in health to keep their blood and nerves in good condition, many spells of sickness and wasting disease would be prevented. It makes sick people well, puts solid flesh and muscle on thin people, gives strength to weak people, restores the lost vitality to nervous people, imparts the tint of health to pale and sallow people. It adds years to life and puts life into years. Price 50 cents. Book free.

Sold and guaranteed by E. A. Drown.

## MORPHINE IN POCKET.

Man Arrested in Burlington Had Four Bottles in Pocket.

Burlington, April 17.—A man in an advanced stage of intoxication or "dope" created a diversion on Church street Saturday when his legs gave way and he seated himself in the doorway of a store. Officer Collins came to the rescue and took him to jail with some difficulty as the man walked as though he had no back bone. At the jail he said his name was John Shippey and that he was from Danby. In his pockets were found four bottles of morphine, one of them opened. He evidently had come to Burlington to lay in a stock.
